Affordable and comfortable travel in Japan
“Keisei Skyliner & Tokyo Subway Ticket”
Sales Locations Expanded!
 Sales Start in Indonesia from September 16

Keisei Electric Railway Co., Ltd. (head office: Ichikawa, Chiba Prefecture; president: Norio Saigusa) will further expand its sales locations overseas for the “Keisei Skyliner & Tokyo Subway Ticket” that allow foreign visitors to Japan to economically use the “Skyliner” with sales starting in Indonesia from September 16 (Fri).

The “Skyliner” is a fee-based limited express train that connects Narita Airport to the center of Tokyo in as little as 36 minutes. This train is equipped with spaces for large luggage in each car. It is possible to use AC outlets and a free Wi-Fi service (only for foreign visitors to Japan) in each seat in the train while traveling. This speed and comfort makes this a popular train with both passengers in Japan and foreign visitors from overseas.

The "Keisei Skyliner & Tokyo Subway Ticket" is a plan passenger ticket for foreign visitors to Japan. The ticket combines one-way or return fare on the "Skyliner" with the "Tokyo Subway Ticket", which provides free travel on 13 subway lines (nine lines of the Tokyo Metro Subway plus four lines of the Toei Subway) for 24 hours, 48 hours or 72 hours.

The H.I.S. Group has already started selling these products in their shops in China, Hong Kong, Thailand and Singapore. However, the local subsidiary of H.I.S. in Indonesia, where there is a growing demand to visit Japan, will now also start selling this special tickets so that even more foreign visitors to Japan can buy. We plan to continue linking up with the H.I.S. global network to expand sales of these tickets in other countries in the future.

Keisei Electric Railway will continue to strive to ensure that foreign visitors to Japan can enjoy their trip here with even more convenience, comfort and peace of mind.
