We are opening this center to enhance our support system for international travelers to Japan due to their increasing numbers in recent years.

The “SKYLINER & KEISEI INFORMATION CENTER” will offer support in English, Chinese and Korean. This center will give priority to the sale and exchange of special passenger tickets intended for international travelers to Japan. Moreover, this center will dramatically improve our services for international travelers. For example, we will offer information on tourist spots all over the country.

The “SKYLINER & KEISEI INFORMATION CENTER” opened in the Narita Airport Terminal 2・3 Station in December of last year and was certified as a “Category 3” under the TIC (Tourist Information Center) Certification Program by the Japan National Tourism Organization (JNTO) in February of this year. The “SKYLINER & KEISEI INFORMATION CENTER” in the Narita Airport Terminal 1 Station will also aim to acquire the “Category 3” status from the TIC (Tourist Information Center) Certification Program.

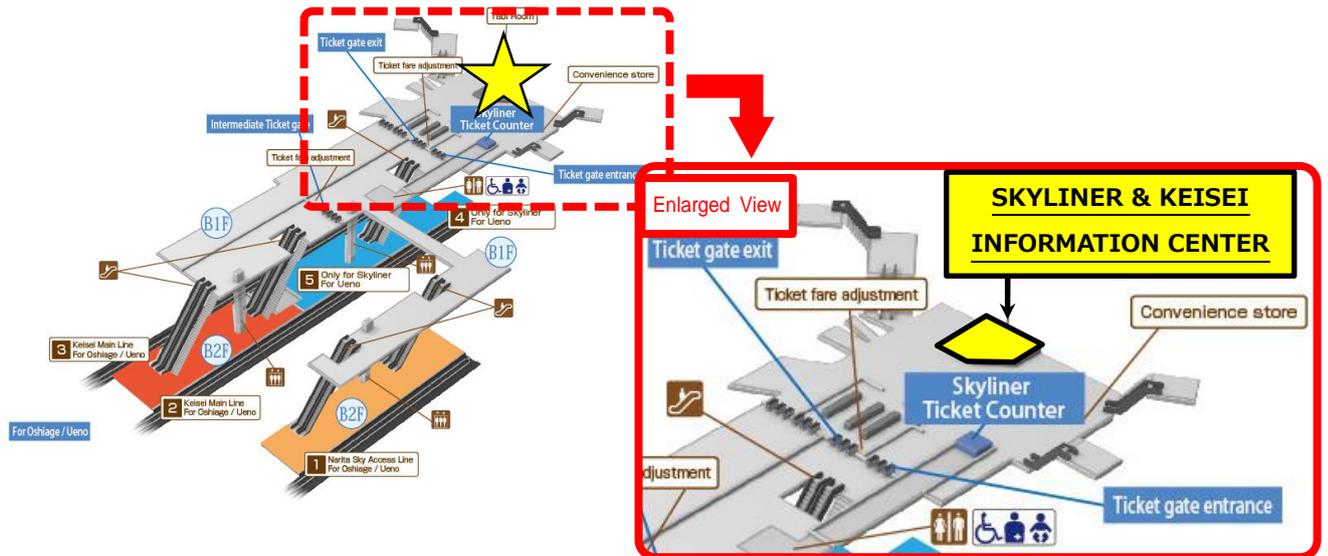

Keisei Electric Railway is striving to improve services so foreign visitors can enjoy their stay in Japan with more convenience and peace of mind.

We have provided an overview of the opening of the “SKYLINER & KEISEI INFORMATION CENTER” on the next page.
